

## **Worldwide Online Survey - Improvement of Education and Training in Facade Design and Technology**

We would like to invite you to take part in a survey designed in cooperation of the **European Facade Network efn** (<http://facades.ning.com/>) and the **Facade Tectonics Institute FTI** (<https://facadetectonics.org/>). The survey has been launched in the US in fall 2016 with the FTI World Congress and will now be distributed in Europe and other continents.

The survey has been designed by the above-mentioned networks and it is seen as a first action to raise awareness among the stakeholders and to collect more information about the educational needs of academic and professional environments. The analysis will also help to understand and optimize processes in the building and facade sector and will be continued as the hands-on approach in the educational sector. The aggregated results will be made available to the respondents of the survey in form of reports. All responses are confidential.

As participant and visitor of the ICBESTconference you are an expert in this field and your opinion will be very important and helpful for us. You are welcome to take part in the survey through this link:

<https://www.surveymonkey.com/r/8BY8GLB>

If you have any concerns or questions regarding the survey, please do not hesitate to contact Prof. James Doerfler, PhilaU; [doerflerj@philau.edu](mailto:doerflerj@philau.edu) or Prof. Dr. Uta Pottgiesser, Detmold School; [uta.pottgiesser@hs-owl.de](mailto:uta.pottgiesser@hs-owl.de).

**We kindly ask you to complete the online survey until March, 30th.**

We thank you a lot for supporting our research project.

Sincerely,

James Doerfler (FTI) and Uta Pottgiesser (efn)
